

# Things the NCI Survey told us

from 8,405 face to face or proxy interviews

FY 14/15

#1

## Employment Rates

13% of people with intellectual/developmental disabilities (I/DD) who were interviewed in California say they have a job in the community.

#2

## Where People are Working

Among the 13% of those employed in 14/15, people with I/DD tell us they are working in the following environments:

- 33% work in Integrated Competitive Employment
- 26% are working in Individually Supported Community
- 42% are working in Group Supported Community

#3

## Unemployed

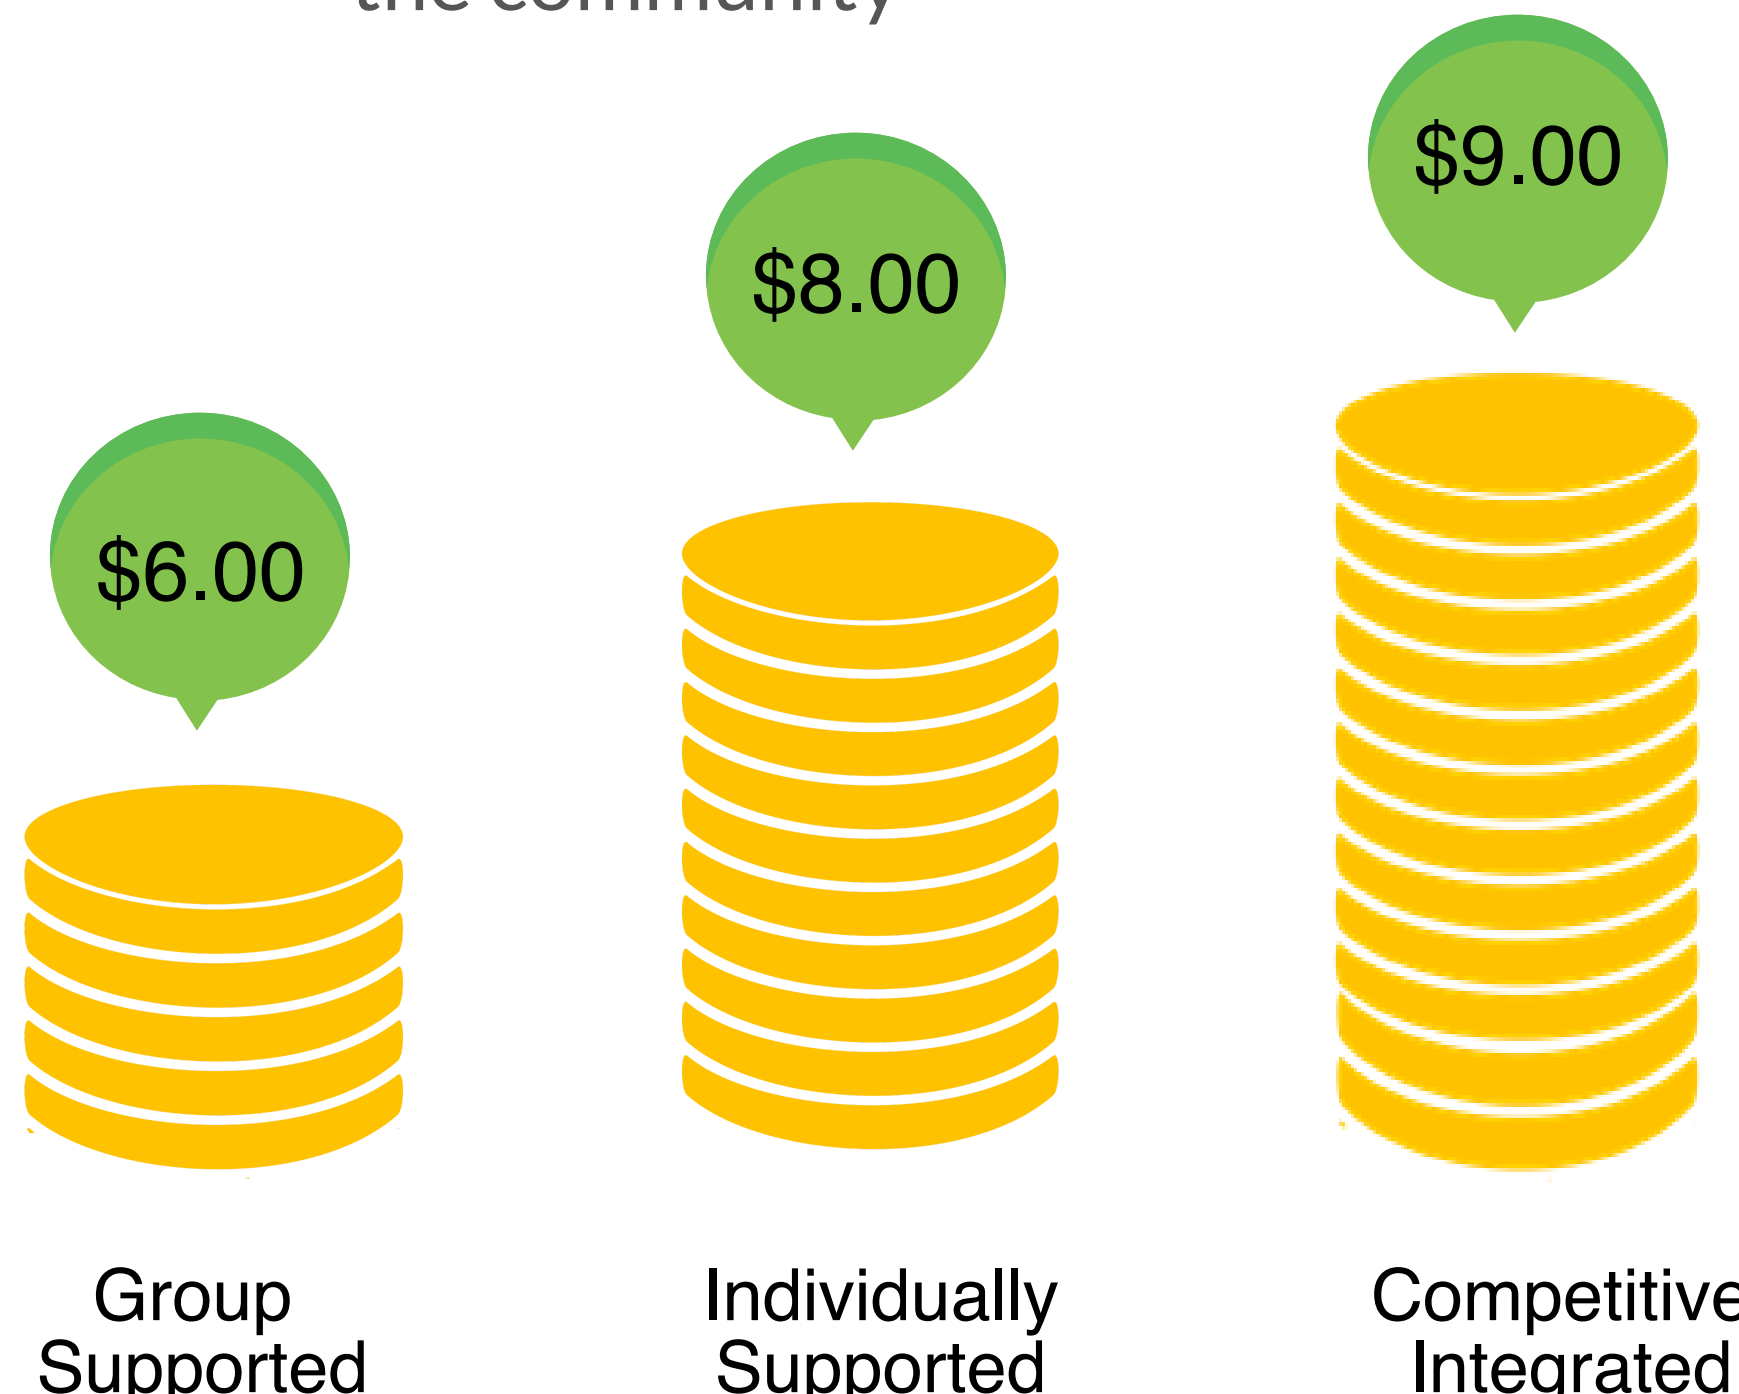

The following percentages capture what unemployed adults with I/DD are saying:

#4

## Average Hourly Wage by Employment Type

Among the 13% who said they worked in the community

#5

34%

## Engages in Moderate Physical Activity

The proportion of adults telling us that they exercise at least 30 minutes a day, 3 times per week. Moderate physical activity is defined as an activity that causes some increase in breathing or heart rate.

#6

## Overweight or Obese

58% of respondents were reported as being overweight or obese, meaning they have a Body Mass Index (BMI) of 25 or more. This measurement is based on reported height and weight.

#7

## Chose Where They Lived

Percentage of People who tell us they chose or had some input in choosing where they lived

#8

## Has friends who are not staff or family

This question could only be answered by the adult with I/DD. 4,824 people answered this question, resulting in 73% of the respondents telling us that they have friends who are not staff or family.
